

CLUE HUNT *THE PICTURE CHASE*

Equip yourself with a **visitors' map** from the translation headset hire office. It will be a great help.

➤ Stage 1

This is where you will find the longest river in Africa.

🕒 Clue: "The light glimmers on the crystals the way it glimmers on the screen".

✎ Mark the attraction on the Futuroscope map below.

➤ **Stage 2**

Go to the building shown in the following photo:

① **Clue:** *it is not a virtual building!*

You may have tried taking off your viewing glasses during the film. What effect did this have? Why is this?

The film's characters were created by computer-generated images. They are also called virtual characters. Why?

➤ **Stage 4**

Go to Futuroscope's flagship theatre: it represents the sunrise. What is the name of this theatre?

In *The Video Challenge*, you can play a video game without using a gamepad: what do you use to play?

➤ **Stage 5**

The following attraction takes place in the only theatre of its kind in the world, where two films are actually played at the same time.
Write down the name of this attraction:

Describe what effect the position of the screens had:

➤ **Stage 6**

Now find this building:

🕒 **Clue:** it is covered in water but you won't get wet!

-  On the map below, colour in the département visited in the film.
-  Show where on this map would you find the Loire valley and its châteaux.
-  Show where on this map would you find La Rochelle.

There were some thrilling moments during the film. They were generated using a special technique. What is this technique called?
